**MAKING THE WORLD'S FOOD SAFER**

*AgraStrip® Pro Watex®  
AgraVision™ Pro*

*The AgraStrip® Pro WATEX® test system enables the rapid and simple on-site quantification of mycotoxins in a variety of agricultural commodities.*

*Both extraction and assay have been streamlined, reducing steps to a bare minimum while setting new standards in accuracy and usability.*

*AgraStrip® Pro WATEX® test kits are lateral flow devices for the rapid, on-site detection of mycotoxins in a variety of agricultural commodities.*

*Strips are available for total aflatoxins (B1, B2, G1, G2), deoxynivalenol, ochratoxin A, zearalenone, total fumonisins (B1, B2, B3), and T2-/HT2- toxins.*

*With the newly developed AgraVision™ Pro reader, the system features a shared extraction and dilution procedure and an intuitive walk-away operation to allow simple testing for several different mycotoxins in less than 10 minutes while helping to eliminate common handling errors.*

*The system can independently and simultaneously test up to 4 samples.*

*The assay takes only 4 minutes, and the reader controls timing, temperature and flow, all in a streamlined procedure.*

*With its integrated incubator and resistance to dust and dirt, the reader secures precise and quantitative results and allows consistent documentation.*

*Our proprietary water-based extraction eliminates hazards both to the user and the environment.*
